

# BIBLIOTECA DEL IALP – LIBROS FALTANTE

| Nº<br>Ficha | Titulo del Libro                                              | Autor                             |
|-------------|---------------------------------------------------------------|-----------------------------------|
| 71          | FLUIDOS COSMICOS                                              | E.BATTANER                        |
| 60          | PRINCIPLES OF STELLAR EVOL ND NUCLEOS SYNT                    | DD CLAYTON                        |
| 64          | ASTROP PROCESSES IN UPPER MAINSEQUENCE STARS                  |                                   |
| 171         | STELLAR STRUCTURE AND EVOLUTION                               | KIPPENHAHN-WEIGET                 |
| 99          | DICCIONARIO ESPAÑOL/INGLES                                    | COLLINS CONCISE                   |
| 245         | THE GALAXIES OF THE LOCAL GROUP                               | SIDNEY VANDEN BERGH               |
| 248         | ASTRONOMY Y ASTROPHYSICS                                      | ZEILIK AND GREGORY                |
| 251         | GALAXY MORPHOLOGY AND CLASSIFICATION                          | SIDNEY VAN DEN BERGH              |
| 165         | PLANETARY RINGS                                               | R. GREENBERG AND A. BRANIC        |
| 174         | THE THREE BODY                                                | C.MARCHAL                         |
| 191         | ASTEROIDS II                                                  | BINZEL, GEHRELS AND MATHEWS       |
| 252         | PROTOSTARS AND PLANETS IV                                     | MANNINGS, ROSS AND RUSSELL        |
| 117         | FORTRAM/9000 REFERENCES                                       |                                   |
| 136         | PROGRAMERS GUIDE TO FORTRAN 90                                | BRAINERD -GOLDBERG- ADAMS         |
| 159         | PROGRAMACION EN FORTRAN 77                                    | F.G. MERAYO                       |
| 124         | ASTROPHYSICS I STARS                                          | R. BOWERS AND T. DEEMING          |
| 231         | GALACTIC ESTRONOMY                                            | J.BINNEY AND M. MERRIFIELD        |
| 96          | MATEMATICAL METHOD OF CLASSICAL MECHANCS                      | V I ARNOLD                        |
| 125         | ASTROPHYSICS II INTERSTELLAR MATTER AND GALAXIES              | R. BOWERS AND T. DEEMING          |
| 69          | GRAVITATIONAL PHYSICS OF STELLAR AND GALACTIC SYS             | WC SASLAW                         |
| 90          | CATRASTROPHE THEORY                                           | V I ARNOLD                        |
| 128         | ERGODIC PROBLEMS OF CLASSICAL MECHANICS                       | V.I ARNOLD AND A. AVEZ            |
| 131         | ECUACIONES DIFERENCIALES, SISTEMAS DINAMICOS Y ALJEBRA LINEAL | HIRSCH -SMALE                     |
| 132         | CALCULO EN VARIEDADES                                         | SPIVAK                            |
| 134         | WEBSTERS NEW DICTIONARY OF SYNONYMS                           |                                   |
| 193         | HAMILTONIAN DYNAMICAL SYSTEMS                                 | R.S MACKAY AND J.D MEISS          |
| 220         | CHAOS IN CLASSICAL AND QUANTUM MECHANICS                      | M.C. GUTZWILLER                   |
| 65          | TEORICAL PROBLEMS IN STELLAR STABILTY AND OSCILLATIONS        |                                   |
| 187         | THEORY OF STELLAR PULSATION                                   | J.P. COX                          |
| 196         | NONRADIAL OSCILLATIONS OF STARS                               | UNNO, OSAKI, SALO AND SHIBAHASHI  |
| 229         | GNU EMACS                                                     | CAMERON, ROSENBLAT AND RAYMOND    |
| 185         | PRINCIPLES OF PHYSICAL COSMOLOGY                              | P.J.E PEEBLES                     |
| 261         | GALAXY FORMATION                                              | M.S. LONGAIR                      |
| 249         | AN INTRODUCTION CLOSE BINARY STARS                            | R.W HILDITCH                      |
| 27          | SOFTWARE FOR PHOTOMETRIC ASTRONOMY                            | S. GHEDINI                        |
| 158         | LES METHODES MODERNES DE LA MECANIQUE CELESTE                 | D. BENEST AND C. FROESCHLE        |
| 262         | PLANETARY NEBULAE                                             | S.R. POTTASCH                     |
| 100         | MECANICA CLASICA                                              | H GOLDSTEIN                       |
| 46          | PHOTO ELECTRIC PHOTOMETRY OF VARIABLES STARS                  | DS HALL AND RM GENET              |
| 214         | ASTROPHYSIC OF GASEOUS NEBULAE AND ACTIVE GALACTIC NUCLEI     | D. OSTERBROK                      |
| 25          | ESO IMAGE HANDLING AND PROCESSING                             |                                   |
| 222         | STAR FORMATION IN STELLAR SYSTEMS                             | TENORIO TAGLE, PRIETO AND SANCHEZ |
| 225         | RUNNING LINUX                                                 | MATTWELSH                         |
| 102         | CHAOTIC DYNAMICS                                              | G L BAKER AND JP GOLLUB           |
| 86          | GRAVITTI GAUGE THEORIES AND QUANTUM COSMOLOGY                 | J.V NARLIKAR; T PADMAN            |
| 141         | MUMERICAL METHODS THAT WORK                                   | F.S. ACTON                        |
| 172         | COMPUTATIONAL FLUID DYNAMICS                                  | J.F. WENDT                        |
| 186         | TEORY OF ROTATING STARS                                       | J.L TASSOUL                       |
| 213         | FUND OF CELESTIAL MECHANICS                                   | J.M.A.DANBY                       |
| 223         | SEVENTY FIVE YEARS OF HIRAYAMA ASTEROID FAMILIES              |                                   |

|     |                                               |                               |
|-----|-----------------------------------------------|-------------------------------|
| 56  | ASTROPHYSICAL TECHNIQUES                      | CR KITCHIN                    |
| 148 | THE ASTRONOMY AND ASTROPHYSICS ENCICLOPEDIA   | S.P MARAM                     |
| 182 | INTERNATIONAL DICTIONARY                      | SIMON AND SCHUSTERS           |
| 211 | COMPENDIUM OF PRACTICAL ASTRONOMY             | GUNTER D ROTH                 |
| 232 | POLARIMETRY OF THE INTERSTELLAR MEDIUM        | P.A.S.P                       |
| 111 | MATEMATICA TM                                 | STEPEN WOLFRAM                |
| 29  | REGIONS OF RECENT STAR FORMATION-VOL 93       | S. ROGER AND P.E. DEWONEY     |
| 145 | ATOMS, STARS AND NEBULAE                      | L.H ALLER                     |
| 147 | UNIVERSE                                      | M.S KAUFMANN                  |
| 212 | ASTRONOMICAL PHOTOMETRY A GUIDE               | STERKEN AND MANFROID          |
| 30  | INFRARED ASTRONOMI-VOL 38                     | G.SEITI AND G.G. FAZIO        |
| 178 | GALAXIES, STRUCTURE AND EVOLUTION             | TAYLER AND ROGER J            |
| 246 | GALAXIES IN THE UNIVERSE                      | L.S.SPARKE AND J.S GALLAGHERT |
| 215 | ASTRONOMY: FROM THE EARTH TO THE UNIVERSE     | J.M PASACHOFF                 |
| 98  | GALACTIC DYNAMICS                             | J BINNEY AND S TREMAIHE       |
| 133 | MECANICA CLASICA                              | H. GOLDSTEIN                  |
| 138 | THE "C" PROGRAMMING LANGUAGE                  | KERNIGHAN -RITCHE             |
| 139 | ADVENTURES IN UNIX NETWORK APPL PROGRAM       |                               |
| 153 | X WINDOW SYSTEMS PROG AND APLICATIONS WHIT XT | DOUGLAS A YOUNG               |
| 154 | X WINDOW SYSTEMS PROGRAMMING                  | N. BARRAKATI                  |
| 160 | COMPUTER SIMULATION USING PARTICLES           | R.W HOCKNEY AND J.W. EASTWOOD |
| 188 | INTERNETWORKING WITH TCP/IP – VOL I           | D.E COMER AND D.L STEVENS     |
| 189 | INTERNETWORKING WITH TCP/IP – VOL II          | D.E COMER AND D.L STEVENS     |
| 190 | INTERNETWORKING WITH TCP/IP – VOL III         | D.E COMER AND D.L STEVENS     |
| 195 | THE NEW PHYSICS                               | PAUL DAVIES                   |
